## ANNEX 1 - BASIS OF THE OPINION

### Objectives and scope of the Verification:

To examine the Reporting Company's emissions report for the Greenhouse Gas (GHG) Program identified above; and to confirm compliance with the rules, principles and monitoring requirements of the Program; and to verify that the reported emissions figures and associated information are compliant and accurate to within the agreed Materiality threshold.

### Responsibilities:

The Reporting Company (named above) is solely responsible for the preparation and reporting of GHG Emission for the purposes of the GHG Program (named above); for any information and assessments that support the reported data; for determining the Company's objectives in relation to GHG information and for establishing and maintaining appropriate performance management and internal control systems from which the reported information is derived.

In accordance with the verification contract dated 2020 it is the responsibility of BSI Group Eurasia Certification Services Inc to form an independent opinion, based on the examination of information and data presented in the Emissions Report, and to report that opinion to the Company. We will also report if, in our opinion (see Annex 2) :

- any information or assessments relating to the disclosed data are inconsistent with the verification findings; or
- the verification team has not received all the information and explanations that it requires to conduct its examination; or
- we become aware of additional information, the omission of which may result in the reported data being materially misstated or misleading.

Without qualifying our Opinion, we may also report to the Company any opportunities identified for improvement in the robustness of emissions accounting and reporting processes (these are identified in Annex 2).

### Work performed & basis of the opinion:

We conducted our examination having regard to the reference documents 1-# outlined below. This involved examining, on a test basis, evidence to give us limited assurance that the amounts and disclosures relating to the data have been properly prepared in accordance with the rules and principles of ISO14064-1:2006, as outlined in reference documents A-# below.

In testing the emissions accounting and reporting processes, we examined elements at both entity consolidation level and a selection of local facilities.

This examination also involved assessing where necessary estimates and judgments made by the Company in preparing the data and considering the overall adequacy of the presentation of the data in the Emissions Report.

**OPINION - verified:** BSI Group Eurasia Certification Services Inc has conducted a verification of the greenhouse gas data reported by *Kazan Soda Elektrik Uretim A.S.* in its Emissions Report dated 10<sup>th</sup> November 2020 and presented above.

**OPINION - verified with comments:** As a result of verification procedures, it is the opinion of BSI with limited assurance that: The Greenhouse Gas Emissions for the period from 01/01/2019-31/12/2019 is 217.757 tonnes of CO<sub>2</sub> equivalent (materiality level is 15%).  
On the basis of the verification work undertaken, nothing has come to the attention of the verifier that causes them to believe that the data are materially mis-stated by *Kazan Soda Elektrik Uretim A.S.*  
Data quality was considered acceptable in meeting the principles as set out in ISO 14064-1:2006.
